*THE BEAST — 96V 175Ah LiFePO₄ Performance Extreme Battery

The ultimate on Lithium power. When you need the biggest and the baddest this 96V 175Ah battery is appropriately named “The Beast” as it delivers significantly more power than any other battery on the market. When paired with additional performance upgrades, a Moke may achieve speeds in excess of 60 mph.

Overview

The best Moke performance lithium upgrade available. This battery unleashes more than expected and is the most powerful system to date. 96V 175Ah 400A Lithium Performance Extreme Battery, boldly nicknamed “The Beast.”

Available now as a standalone upgrade or it can be integrated into one of House of MOKEs customized performance packages.

This high-output battery delivers:

Key Performance Features

Power & Range

- 96V nominal / 102V fully charged
- 175Ah capacity
- Up to 65-mile range
- Extreme acceleration

Battery Technology

- Grade A LiFePO₄ cells
- Industry-trusted Bluetooth BMS
- 400A continuous discharge
- 800A peak discharge
- Heavy-duty metal protective case

- Safe LiFePO₄ chemistry

Charging & Instrumentation

- Dual-voltage charger (15A @ 110VAC / 20A @ 220VAC)
- J1772 EV station compatibility
- Accurate 4.3" digital LCD display

Kit Contents

- 96V 175Ah Lithium Battery
- Automatic Charger
- Digital Display Gauge
- Gauge Mounting Bracket
- Upgraded 2AWG Cables

Important Performance & Safety Notice

Please observe the following important guidelines:

- Always comply with all applicable traffic laws, local regulations, and compliance requirements when operating a modified Moke.
- Achieving top speeds may require an upgraded controller capable of safely handling higher power demands.
- Do NOT exceed the OEM controller's rating of 200A continuous. Surpassing this limit may cause controller damage, reduced reliability, or unsafe operating conditions.
- Operators are responsible for ensuring that all vehicle modifications are used safely and legally.

***These batteries must be ordered and will take approximately 2 months from receipt of deposit until delivery and/or installation.**

Your MOKEs controller needs to be re-programmed to handle the increase in power and this feature is included when having House of MOKE do the installation.
